

ONE CLICK METAL
made with mind

LABMODULE
for more material variety

- **More flexibility**
Further and different powder materials can be used with the Lab module without time-consuming material changes of the complete system.
- **Growing application possibilities**
Due to the flexible extension with the Lab module, the possibilities in the application for the LPBF technology grow.
- **Easy integration**
Compatibility with the MPRINT+ means that the Lab module can be installed quickly and easily.

Technical data

Building area (LxW)

78mm x 53mm

Building height

90mm at 1,5 times dosing*

Integrated powder supply

Removable overflow

*maximum height of 120mm depending on dosing factor.
