

## Supplementary data privacy information for participants at events

### **What we use your data for**

We normally collect your data directly from you. If we use a service provider for registration or ticketing, it will send us the personal data which you have provided to that service provider.

### **What we use your data for**

We process your data to carry out the event in question. If photos are displayed at the events, this is done for the purpose of company presentation as part of our publicity work (and the legal basis will be Art. 6(1)(1)(f) GDPR).

### **Forwarding of data**

Data subjects' data will be provided to: IT service providers within the scope of maintenance; other companies inside and outside One Click Metal GmbH or/and its affiliated companies of the TRUMPF Group with whom the controller is involved, for the purpose of advertising; or marketing service providers for supportive services.

### **How long we store your data**

Data subjects' data is retained until the event is over, and up to three years after that.
