

One Click Metal – made with mind!

As a start-up company in the field of additive manufacturing, we are looking for personalities who are openminded and committed to find and implement trendsetting solutions. We are a young team and innovative industrial-B2B who are developing metal 3D printing technologies based in Tamm near Stuttgart.

ONE CLICK METAL

Our vision - Technology understandable to everyone and available with one click.

Our mission - Our solutions simplify the use of technologies so that everyone can understand and successfully use them - empowering great minds!

We are looking for a

Junior Software Developer (f/m/d)

Job-ID: OCM1018

You will...

- Develop our cloud platform ocm.one further
- Implement, manage and setting up the license management
- Be responsible for the Single Sign-On (SSO) Implementation for own and third-party services
- Work via code reviews and plan the implementation of new features with the team
- Be responsible for the quality, security and operation of the software you write

You have...

- A bachelor's degree in computer science or related fields
- At least 2+ years of professional experience as a programmer
- In-depth knowledge of at least one programming language: Python or JavaScript
- And want to continuously develop yourself and open to learn other programming languages
- Good knowledge or experience in some of the following areas:
 - Test-driven development / Test automation (Unit Tests / End-to-end Test)
 - OAuth2 / OpenID Connect
 - RESTful APIs
 - Version control systems e.g. Git
- Reference projects, ideally with a link to git, repo or website
- The ability to present complex contexts clearly and simply
- Very good communication skills and enjoy working in a team

We offer...

- A motivating start-up working atmosphere characterized by trust, flexibility and on your own responsibility
- Working with agile methods, creative leeway through low hierarchies, individual development opportunities
- Very good transport connections, also ÖPNV (public transport – train station: Tamm) and highways (A81, B27) nearby
- Close cohesion in a young, dynamic team, regular team events and activities (also Corona conform)
- Access to innovative 3D printing technologies
- Every day fresh fruits, cereals & superfood, delicious coffee from the portafilter machine
- Possibility of a business bike
